Prototype Answers — Store Home (Home Tab)

Prototype: input/prototype/Team Stores/ (React, single-file JSX, no build step; read from source only) · Questions: 48 · Answered 11 · Partial 24 · Contradicts 4 · Not in prototype 9

How to read this: every Evidence path is inside `input/prototype/Team Stores/`. The prototype page `Workspace.dc.html` loads `workspace-app.jsx`, so that file is cited. The Home tab code in `workspace-app.jsx` (lines 10980–11404) is word-for-word the same in `workspace-app-integrated.jsx` (lines 10992–11416). Card numbers such as C-03 are the cards in Home's "Needs your attention" list. The prototype builds 10 of them: C-01, C-03, C-04, C-06, C-09, C-11, C-14, C-16, C-17 and C-18. Sample orders, players and "recent work" rows are made-up example data, not rules. Every citation was re-checked against the current code on 2026-10-26.

Screens found

- Workspace side navigation (Home, My Teams / My Team, Products, Orders, Reports, Settings); Home opens first — workspace-app.jsx:1716 (`WORKSPACE_NAV`), :1724 (StoreSideNav), :11407 (default tab)
- Workspace top bar (Back to Stores, Setup guide, Preview Store, actions menu; no status label and no store web address) — workspace-app.jsx:1641 (StoreWorkspaceBar)
- Home tab: status strip, Needs your attention, Recently worked on, League/Team Manager Information, In your store, League structure, Brand assets, Reopen the setup guide — workspace-app.jsx:11119 (HomeTab), card rules at :11027 (buildHomeAttention)
- Draft "Ready to launch?" banner above every tab — workspace-app.jsx:11549
- Settings with sections General, Store Codes, Schedule & Status (including the Order Window Scheduler), Team & Roster, Store Customization & Design, People & Access, Distribution & Fulfillment, Logo Library — workspace-app.jsx:31068 (StoreSettingsNav), :18476 (GeneralInfo), :18207 (OrderWindowScheduler), :31319 (People & Access)
- Orders tab (All Orders, Pending Orders) — workspace-app.jsx:24544 (OrdersTabV2)
- Reports tab with Close Report entry and a store-wide "Still need to order" page — workspace-app.jsx:12071 (PayoutsTab), :36250 (NeedToOrderPage)
- Products tab: catalog with a search box and a Category filter only — workspace-app.jsx:12481 (ProductsTab), :33746 (ProductsCatalogSections); product page with Application sizing and Bundle Members sections — :34749, :22180. A second product list with Decoration, Visibility and Fundraising filters exists in the code (:29238, ProductsListV2) but is not shown on any screen.
- My Teams / My Team tab (canvas, divisions, teams, store-wide Roster Bank panel, product coverage by team) — workspace-app.jsx:13459 (RosterTab), :14890, :14159
- Store Setup Guide pop-up — workspace-app.jsx:33054 (StoreSetupGuideHost), cards at :32888
- Store Close Report pop-up — workspace-app.jsx:32759 (StoreCloseReportHost)
- Team Manager Portal (Reporting, Rosters) — workspace-app.jsx:31660
- Store creation Step 1 review (manager list) — workspace-app.jsx:9972 (Step6Review)

Answers

ID	Priority	Status	Answer from prototype	Evidence (file:line — quoted code)	Confidence
Q-1	P1	Not in prototype	The prototype can't show who publishes spec changes or what Appendix A contains.	searched: Appendix, amendment, 8b, 8d, 8e — no match in the prototype	—
Q-2	P1	Partial	Home has no C-05, C-10, C-15 or C-23 card, so none of these links exist. What exists elsewhere: the Reports tab has a store-wide "Still need to order" page (each player and the team items they still need). It is in Reports, not My Team(s). The Products catalog the rep actually sees has only a search box and a Category filter, so there is no "still generating images" (C-10) or "still collecting fundraising" (C-23) filter. Those two filters are written into a second product list that no screen shows. Because of that, Settings' "View in Products →" link (fundraising off, items still collecting) opens the catalog without any filter. Still open: which tab owns each list, and whether building them is part of the Home project. See M-1 to M-3 below.	workspace-app.jsx:36271 — `data-screen-label="Still need to order"` ; workspace-app.jsx:33927 — `placeholder="Search the catalog by name or SKU"` ; workspace-app.jsx:33935 — `{cats.map((c) => <option key={c} value={c}>{c}</option>)}` ; workspace-app.jsx:29280 — `{ k: "deco", label: "Decoration", opts: ["All", "Not decorated", "Render pending", "Art: Draft", "Art: Submitted", "Art: Approved", "Art: Rejected"] },` ; workspace-app.jsx:29283 — `{ k: "fund", label: "Fundraising", opts: ["All", "Collecting"] },` ; workspace-app.jsx:30207 — `Object.assign(window, { ProductsListV2,` ; workspace-app.jsx:18608 — `View in Products →`	Medium

ID	Priority	Status	Answer from prototype	Evidence (file:line — quoted code)	Confidence
Q-3	P1	Contradicts	The prototype uses "any product added", not "a product shoppers can see". The Launch button turns on as soon as one product is in the catalog, even a hidden one, and Home follows the same rule: "Add a product before you launch" (C-09) shows only when the catalog is empty, and "Your store is ready to launch" (C-16) shows once any product exists. Home's spec says C-09 and C-16 must use visible products. The prototype's own Setup Guide text says "at least one visible product", so the prototype disagrees with itself too. The owner must pick one rule.	workspace-app.jsx:11449 — `const canLaunch = (store.products` ; workspace-app.jsx:11560 — `add at least one product, then launch to start taking orders.` ; workspace-app.jsx:11036 — `title: "Add a product before you launch"` ; workspace-app.jsx:11038 — `cards.push({ tone: "blue", kind: "launch", title: "Your store is ready to launch"` ; workspace-app.jsx:32904 — `a store needs at least one visible product to launch`	High
Q-4	P2	Answered	Option A. An invited team manager gets a separate Team Manager Portal with only two areas, Reporting and Rosters. There is no Home tab in it and no six-tab navigation.	workspace-app.jsx:31663 — `const NAV = [{ id: "payouts", label: "REPORTING" }, { id: "roster", label: "ROSTERS" }];`	Medium

ID	Priority	Status	Answer from prototype	Evidence (file:line — quoted code)	Confidence
Q-5	P2	Answered	Option A. The workspace side navigation shows six tabs in this order: Home, My Teams (or My Team), Products, Orders, Reports, Settings. This is the only layout the prototype shows. An older tab strip with a different order is still in the code but is never shown.	workspace-app.jsx:1717 — `{ id: "home", label: "Home", icon: IconHomeGlyph },` ; workspace-app.jsx:1722 — `{ id: "general", label: "Settings", icon: IconSettings },` ; workspace-app.jsx:1799 — `<Dashboard embedded {...props} />`	High
Q-6	P2	Partial	"n pending orders to submit" (C-01) shows whenever at least one pending order exists, with no waiting time. C-02 and C-05 aren't built. Still open: whether to add a wait or deadline rule.	workspace-app.jsx:11067 — `if (oi.pending > 0) {`	High

ID	Priority	Status	Answer from prototype	Evidence (file:line — quoted code)	Confidence
Q-7	P2	Partial	The "needs a manager" card (C-03) appears only on Open League stores, and only for divisions set up so each team has its own manager. The "Add a delivery address" card (C-04) appears only on Draft stores and only checks whether the store's street address is blank. It doesn't check the fulfillment method or the store type. Still open: the intended rule for each store setup, and whether C-04 should also show after launch.	workspace-app.jsx:11044 — `if (lc.open && (store.storeType` ; workspace-app.jsx:11034 — `if (lc.draft) {` ; workspace-app.jsx:11041 — `cards.push({ tone: "red", navTab: "general", kind: "settings-store", title: "Add a delivery address before orders can ship"`	High
Q-8	P2	Answered	Option A. A team counts as "needs a manager" for C-03 unless its manager has a name, a valid email, a valid phone and a street address. So an assigned manager with no address already brings up the C-03 card.	workspace-app.jsx:13235 — `return !!(hasName && isValidEmail(m.email) && isValidPhone(m.phone) && String(m.address` ; workspace-app.jsx:11048 — `return !managerComplete((org.managers`	High

ID	Priority	Status	Answer from prototype	Evidence (file:line — quoted code)	Confidence
Q-9	P2	Partial	Home's "Images failed" card (C-11) looks for a product marked "failed", which matches option A. But nothing else in the prototype ever marks a product as failed, and the Decoration filter written for products (in the list no screen shows) has no "failed" choice. So the card never appears with the sample data. Still open: whether Products adds a "Render failed" state.	workspace-app.jsx:11021 — `p.renderStatus === "failed"` ; workspace-app.jsx:29280 — `opts: ["All", "Not decorated", "Render pending", "Art: Draft", "Art: Submitted", "Art: Approved", "Art: Rejected"]`	Medium
Q-10	P2	Partial	There's no C-13 card. In Products, sizing is confirmed per product, not per decoration row. A product can only be added to the store once sizing is confirmed, or after the rep picks "Label As Shown", which sets every row to "As Shown". So every product in the store is already confirmed (close to option C), and a C-13 card built on this would never appear. Still open: whether a per-row confirmed mark is wanted.	workspace-app.jsx:12557 — `pending.every((p) => configs[p.__pendingId]?.sizesConfirmed);` ; workspace-app.jsx:12151 — `// "Label As Shown" sets all applications to AS SHOWN and commits.` ; workspace-app.jsx:12267 — `sizesConfirmed: true,`	Medium

ID	Priority	Status	Answer from prototype	Evidence (file:line — quoted code)	Confidence
Q-11	P2	Partial	Deleting a category is never blocked. Removing one on the Products tab moves its products to "Uncategorized". Deleting one at workspace level lets the rep choose a category to move them to, or "Uncategorized" if none is chosen. Products are never left with no category at all, and the catalog's Category filter then offers "Uncategorized". Home has no C-27 card. Still open: whether "Uncategorized" is the state C-27 should flag.	workspace-app.jsx:33990 — `note: "Products move to Uncategorized"` ; workspace-app.jsx:31555 — `(reassignTo || "Uncategorized")` ; workspace-app.jsx:28999 — `if (used.includes(CAT_NONE)) sorted.push(CAT_NONE);`	Medium
Q-12	P2	Partial	There's no C-15 card. The "Ordering window closes" card (C-14) shows on every Open store that has a close date, however many days are left. It has no 7-day rule and no 14-day rule, even though the Active Order Window card in Settings already turns urgent at 7 days. Still open: the C-15 timing, and C-14 needs the 7-day limit.	workspace-app.jsx:11079 — `if (lc.open && close) {` ; workspace-app.jsx:11016 — `const daysLeft = Math.max(0, Math.ceil((end - new Date()) / 86400000));` ; workspace-app.jsx:18548 — `const winUrgent = !closed && daysLeft <= 7;`	High

ID	Priority	Status	Answer from prototype	Evidence (file:line — quoted code)	Confidence
Q-13	P2	Partial	"Your close report is ready" (C-17) shows on every Closed store, whether or not this user has seen the report. Its button opens the report directly. Separately, the report opens by itself on the first visit after closing, until this user has seen it. In practice the card works as a permanent link on Closed stores, close to option A. Archived stores show no cards and no other Close Report link on Home. Still open: keep C-17, or drop it for a plain link that also shows on Archived stores.	workspace-app.jsx:11075 — `if (lc.closed) {` ; workspace-app.jsx:11076 — `title: "Your close report is ready"` ; workspace-app.jsx:32766 — `// Automatic trigger: Closed + this user hasn't seen THIS close event yet.` ; workspace-app.jsx:11033 — `if (!lc.archived) {`	High
Q-14	P2	Partial	There's no C-19 card. The Settings Order Window Scheduler shows a "coverage gap" note with no button to accept the gap. Still open: whether to add an accept action.	workspace-app.jsx:18358 — `–day coverage gap</strong> between`	High
Q-15	P2	Not in prototype	There's no C-20 card, and orders have no paid or unpaid status.	searched: PO, paid, unpaid, settle, open PO — no match on orders (only "Paid this season" and "Team-paid" item labels)	—
Q-16	P2	Not in prototype	There are no C-21 or C-22 cards, and no keep-or-remove prompt for managers after switching teams.	searched: kept or removed, keep them, previously connected, switched away, Change Team manager prompt — no match	—

ID	Priority	Status	Answer from prototype	Evidence (file:line — quoted code)	Confidence
Q-17	P2	Partial	Cards are sorted by colour only: red, then blue, then grey. Within a colour they keep the order they are listed in the code: red is C-09, C-04, C-03, C-11; blue is C-16, C-01, C-06; grey is C-17, C-18, C-14. There is no ranking by cost of delay. Still open: the owner's ranked list.	workspace-app.jsx:11084 — `const rank = { red: 0, blue: 1, grey: 2 };` ; workspace-app.jsx:11085 — `cards.sort(function (a, b) { return rank[a.tone] - rank[b.tone]; });`	High
Q-18	P2	Partial	Draft stores show only C-09 or C-16, plus C-04. Closed stores show C-17, C-18 and, if any orders are pending, C-01. C-03, C-06, C-11 and C-14 show only on Open stores. Archived stores show no cards. Of the cards the question asks about, only C-14 is built, and it never shows on Closed stores. Still open: the full list for each store state.	workspace-app.jsx:11033 — `if (!lc.archived) {` ; workspace-app.jsx:11034 — `if (lc.draft) {` ; workspace-app.jsx:11070 — `if (lc.open && bank.total > 0) {` ; workspace-app.jsx:11061 — `if (lc.open && failed.length) {`	High
Q-19	P2	Not in prototype	Nothing records the rep's work. "Recently worked on" shows three fixed example rows (for example "Division 7 → U12 Blue — roster", "Fan Gear — pricing", "Announcement message"). These are samples, not a list of qualifying actions.	searched: resume event, activity, recordEvent, trail writes — only the fixed sample rows at workspace-app.jsx:11181	Low

ID	Priority	Status	Answer from prototype	Evidence (file:line — quoted code)	Confidence
Q-20	P2	Partial	Home reads the same order list as the Orders tab. "to submit" is the number of pending orders. The headline count on the Orders row adds pending and already-submitted orders together, so it isn't the All Orders count alone. The Reports tab's "Orders" and "Pending Orders" figures are estimated from revenue, so they won't match Home or the Orders tab. Still open: which number is the headline.	workspace-app.jsx:10992 — `return { pending, submitted, total: pending + submitted, pendingGroups };` ; workspace-app.jsx:11204 — `{ id: "orders", label: "Orders", sub: (oi.total) + " orders", extra: oi.pending ? { text: oi.pending + " to submit"` ; workspace-app.jsx:24569 — `makeOrdersDataset(store) :` ; workspace-app.jsx:12080 — `const orders = Math.max(Math.round(revenue / 46), 1);`	High

ID	Priority	Status	Answer from prototype	Evidence (file:line — quoted code)	Confidence
Q-21	P2	Partial	The prototype has no control anywhere to change which manager is the main contact. The store's own manager is always the main one. The "Store Point of Contact" settings sit in the Edit Store Details pop-up, "moved here from the manager modal". On Home, the main contact's "Edit" goes to Settings → General, and other managers' "Edit" goes to Settings → Distribution & Fulfillment. Neither opens a manager pop-up on Home. Still open: where the control to change the main contact lives.	workspace-app.jsx:10806 — `{/* Store Point of Contact — moved here from the manager modal */}` ; workspace-app.jsx:11287 — `<HomeLinkBtn label="Edit ›" onClick={function () { m.poc ? onGoSettings("store") : onManagers(null); }} />` ; workspace-app.jsx:11417 — `setSettingsSection("distribution"); setTab("general");`	Medium

ID	Priority	Status	Answer from prototype	Evidence (file:line — quoted code)	Confidence
Q-22	P2	Contradicts	Home tags the main manager "Point of Contact". The store-creation review screen tags the same person "Primary Contact", a term Home's spec bans. The Settings manager card shows no tag at all. Home also shows the tag every time, even when buyers are shown a salesperson's contact details, which the spec forbids. The owner must confirm the renaming.	workspace-app.jsx:11165 — `pref: prefText(store.contactPref), poc: true };` ; workspace-app.jsx:10019 — `title="The Store Point of Contact inherits from this record"` ; workspace-app.jsx:10019 — `textTransform: "uppercase" }}>Primary Contact</span>}` ; workspace-app.jsx:18659 — `<DetailCard title={store.storeType === "league" ? "League manager information" : "Team manager information"} onEdit={() => setEditing("shipping")}>`	High
Q-23	P2	Contradicts	The prototype does option B. On Home, the "Edit ›" links for Team Logo and Team Colors open Settings → General, with no editor on Home. The spec says Home shows the existing logo and colour controls itself. Only "Reset to team color" works directly on Home.	workspace-app.jsx:11366 — `{!readOnly && <HomeLinkBtn label="Edit ›" onClick={function () { onGoSettings("store"); }} />}` ; workspace-app.jsx:11376 — `{!readOnly && <HomeLinkBtn label="Edit ›" onClick={function () { onGoSettings("store"); }} />}` ; workspace-app.jsx:11387 — `onUpdateStore({ primaryColor: defaultTheme })`	High

ID	Priority	Status	Answer from prototype	Evidence (file:line — quoted code)	Confidence
Q-24	P2	Partial	On Home, the brand panel's edit links and "Reset to team color" stay available on Draft, Open and Closed stores. They are hidden only on Archived stores, which are read-only. The prototype has no list of fields that lock after launch. Still open: Settings must record the lock decision.	workspace-app.jsx:28384 — `readOnly={!!activeStore.archived}`; workspace-app.jsx:11357 — `{/* Brand assets — editable after launch; only Archived locks it. */}`	Medium
Q-25	P3	Answered	Option A. The section heading reads "Recently worked on", and each row's button reads "Open ›".	workspace-app.jsx:11251 — `<span style={sectionTitle}>Recently worked on</span>`; workspace-app.jsx:11260 — `<HomeLinkBtn label="Open ›" onClick={function () { onGoTab(r.tab); }} />`	High
Q-26	P3	Answered	Option A. On a Draft store, "Add a product before you launch" (C-09) and "Add a delivery address" (C-04) both show with a red edge. Card colour doesn't change with store state. (C-12 isn't built.)	workspace-app.jsx:11036 — `cards.push({ tone: "red", navTab: "products", kind: "products", title: "Add a product before you launch"`; workspace-app.jsx:11041 — `cards.push({ tone: "red", navTab: "general", kind: "settings-store", title: "Add a delivery address before orders can ship"`	High
Q-27	P3	Answered	Option A. Only red cards add a dot to a tab label. Note that tab labels also show a red dot until the rep has opened that tab (and, for Products, until a product exists). That is a "have you visited this tab" dot, which Home's spec rules out.	workspace-app.jsx:11091 — `if (c.tone === "red" && c.navTab) s.add(c.navTab);`; workspace-app.jsx:11543 — `payouts: !viewed.payouts`	High

ID	Priority	Status	Answer from prototype	Evidence (file:line — quoted code)	Confidence
Q-28	P3	Partial	The workspace top bar has no store status label (and no store web address). Home's own status strip shows Draft, Open, Closed or Archived. An older header that says "Active" / "ON HOLD" is still in the code but isn't shown. Still open: which spec owns the header status label.	workspace-app.jsx:11152 — `: lc.closed ? { label: "Closed", bg: "#fdf3d3", color: "#8a6408", dot: "#d9a514" }`; workspace-app.jsx:10383 — `{onHold ? "ON HOLD" : "Active"}`; workspace-app.jsx:1799 — `<Dashboard embedded {...props} />`	Medium
Q-29	P3	Contradicts	The Setup Guide's tabs card still says "Five tabs, five jobs." and lists Products, Orders, My Team(s), Reports and Settings. It leaves out Home, even though the navigation beside it has six tabs. The owner must decide whether card 2 changes.	workspace-app.jsx:32892 — `{ id: "tabs", eyebrow: "The tabs", title: "Five tabs, five jobs.", lines: [`	High
Q-30	P3	Answered	Option A. The Reports tab already has a Store Close Report entry at the top, and Settings has one too. Home's C-17 button opens the report directly rather than going through Reports.	workspace-app.jsx:12093 — `<StoreCloseReportEntry store={store} variant="reports" />`; workspace-app.jsx:18810 — `<StoreCloseReportEntry store={store} variant="settings" />`; workspace-app.jsx:11141 — `window.dispatchEvent(new CustomEvent("closereport:open", { detail: { layer: "summary" } }));`	High

ID	Priority	Status	Answer from prototype	Evidence (file:line — quoted code)	Confidence
Q-31	P3	Partial	The Orders tab's Pending Orders screen still uses the word "Containers". Its buttons say "Submit Group", "Submit Selected" and "Submit All", not "approve". Still open: whether the Orders spec should change its wording.	workspace-app.jsx:23705 — `Containers are keyed to a division or team.`; workspace-app.jsx:5195 — `>Submit Group</button>`	High
Q-32	P3	Answered	Option A. The "Assign managers" button opens Settings → Distribution & Fulfillment, with the first affected division and team in focus.	workspace-app.jsx:11137 — `else if (card.kind === "assign") onManagers(card.target);`; workspace-app.jsx:11417 — `const jumpToManagers = (groupId, rosterId) => { setManagerFocus({ groupId, rosterId, n: Date.now() }); setSettingsSection("distribution"); setTab("general"); };`	High
Q-33	P3	Not in prototype	C-05 isn't built. The "Oldest placed 3 days ago" and "Oldest captured 2 days ago" lines on C-01 and C-06 are fixed text, not worked out from real dates.	searched: C-05, required gear, oldest — only the fixed text at workspace-app.jsx:11068 and :11072	Low
Q-34	P3	Not in prototype	C-10 isn't built on Home, and the catalog the rep sees has no "still generating images" filter.	searched: still generating images, Render pending on Home — no Home card	—

ID	Priority	Status	Answer from prototype	Evidence (file:line — quoted code)	Confidence
Q-35	P3	Answered	Option A in practice. Both buttons only take the rep somewhere. "Retry" (C-11) opens the Products tab, not the product's page, and retries nothing. "Launch store" (C-16) opens the same launch confirmation pop-up as the Draft banner's Launch button.	workspace-app.jsx:11134 — `if (card.kind === "products") onGoTab("products");` ; workspace-app.jsx:11135 — `else if (card.kind === "launch") onLaunch();` ; workspace-app.jsx:11511 — `setShowLaunchModal(true)`	High
Q-36	P3	Answered	Yes, reps see the word. A one-item bundle shows "Incomplete — needs a second item" on the Products catalog card and on the bundle's page. (C-12 isn't built on Home.)	workspace-app.jsx:33708 — `Incomplete — needs a second item</div>` ; workspace-app.jsx:22189 — `<span><strong>Incomplete — needs a second item.</strong>`	High
Q-37	P3	Partial	The Products tab calls these products "Uncategorized", both in its section heading and in its Category filter. Home has no C-27 card. Still open: the card wording.	workspace-app.jsx:28977 — `const CAT_NONE = "Uncategorized";` ; workspace-app.jsx:33990 — `note: "Products move to Uncategorized"` ; workspace-app.jsx:28999 — `if (used.includes(CAT_NONE)) sorted.push(CAT_NONE);`	High
Q-38	P3	Partial	"n orders are still being made" (C-18) shows on any Closed store with submitted orders, and counts all of them. It never checks Shipped or Delivered, so it never goes away on its own. Still open: Shipped or Delivered.	workspace-app.jsx:11077 — `if (oi.submitted > 0) cards.push({ tone: "grey", kind: "orders"`	High

ID	Priority	Status	Answer from prototype	Evidence (file:line — quoted code)	Confidence
Q-39	P3	Not in prototype	There's no C-24 card. People & Access shows "Invited · not logged in" with no day limit.	searched: 7 days, invite threshold, haven't signed in — no match; status label at workspace-app.jsx:31371	—
Q-40	P3	Partial	Settings → People & Access uses "Active" and "Invited · not logged in". Home shows no invite status at all. It shows an "Invite" link on every manager except the main contact, whatever their invite state. That link, and the "Settings → People & Access" link under the panel, both open Settings → General, not People & Access. Still open: the wording and the status display on Home.	workspace-app.jsx:31368 — `/>Active</span>`; workspace-app.jsx:31371 — `/>Invited · not logged in</span>`; workspace-app.jsx:11286 — `{!m.poc && <HomeLinkBtn label="Invite" onClick={function () { onGoSettings("store"); }} />}`	High
Q-41	P3	Not in prototype	The prototype builds only 10 cards (C-01, C-03, C-04, C-06, C-09, C-11, C-14, C-16, C-17, C-18), so it can't settle the full count.	searched: C-27, C-25, card list — only the 10 cards in buildHomeAttention, workspace-app.jsx:11027	—
Q-42	P3	Not in prototype	Edits made on Home don't add anything to "Recently worked on". The rows are fixed samples.	searched: trail write, activity record — none; sample rows at workspace-app.jsx:11181	Low

ID	Priority	Status	Answer from prototype	Evidence (file:line — quoted code)	Confidence
Q-43	P3	Answered	Option B. The tab reads "My Teams" on League stores and "My Team" on single-team stores, and Home's first "In your store" row copies the tab.	workspace-app.jsx:1726 — `const labelFor = (it) => it.id === "roster" ? ((store && store.storeType === "league") ? "My Teams" : "My Team") : it.label;` ; workspace-app.jsx:11202 — `{ id: "roster", label: isLeague ? "My Teams" : "My Team", sub: st.players + " players",`	High
Q-44	P3	Partial	"In your store" has four rows and no Settings row: My Teams, Products, Orders, and Reports (sub-line "Store analytics"). The Products row also shows up to four product thumbnails. A separate status strip at the top of Home shows the store status, close date and days left, the order count, the amount raised (with "this window" on Open stores) and the store web address with a Copy button. So "raised" sits in the strip, not on the Reports row. Still open: the final row list and contents.	workspace-app.jsx:11205 — `{ id: "payouts", label: "Reports", sub: "Store analytics" }` ; workspace-app.jsx:11221 — `raised{lc.open ? " this window" : ""}` ; workspace-app.jsx:11315 — `{products.slice(0, 4).map(`	High

ID	Priority	Status	Answer from prototype	Evidence (file:line — quoted code)	Confidence
Q-45	P3	Partial	Neither Home nor the Settings manager card offers "Add from Team Database". Home has only "Add manager", which opens Settings → Distribution & Fulfillment. The Team Database lookup appears only in Edit Store Details, for connecting the team. Still open: whether Settings adds the import button.	workspace-app.jsx:11272 — `<button onClick={function () { onManagers(null); }}`; workspace-app.jsx:10812 — `<TeamDatabaseModal open={teamModalOpen}` ; workspace-app.jsx:18659 — `onEdit={() => setEditing("shipping")}>`	Medium
Q-46	P3	Partial	Home shows "Team artwork library — team-level, spans seasons ›", which opens Settings → General. Settings has a separate "Logo Library" section ("Approved artwork from the ERP") that the link doesn't go to. Still open: the right destination.	workspace-app.jsx:11393 — `Team artwork library <span style={{ fontWeight: 500, color: "#9a9aa1" }}>— team-level, spans seasons</span> ›` ; workspace-app.jsx:11392 — `onClick={function () { if (!readOnly) onGoSettings("store"); }}` ; workspace-app.jsx:31079 — `items.push({ id: "logos", label: "Logo Library", desc: "Approved artwork from the ERP" });`	High

ID	Priority	Status	Answer from prototype	Evidence (file:line — quoted code)	Confidence
Q-47	P3	Partial	The League structure panel is built from today's data. It has a counts line (divisions · teams · players), one row per division (no teams listed under it, nothing to expand), and standalone teams tagged "STANDALONE". It scrolls inside a fixed height. Every row opens the My Teams tab at its top level, not the clicked division or team. Still open: build now or wait, and the jump to the clicked division or team.	workspace-app.jsx:11331 — `<div style={{ maxHeight: 300, overflowY: "auto" }}>`; workspace-app.jsx:11336 — `onClick={function () { if (!readOnly) onRosterBank(); }}`; workspace-app.jsx:11511 — `onRosterBank={() => setTab("roster")}`	High

ID	Priority	Status	Answer from prototype	Evidence (file:line — quoted code)	Confidence
Q-48	P3	Partial	The prototype has working text for some of these. Empty list: "Nothing needs your attention right now." (plus "The store is open and taking orders." on Open stores). Archived: "This store is archived and read-only — nothing is awaiting action." Expander: "n more". Recent-work rows: item name, "when · tab name", and "Open ›". There's no text for the salesperson case under the manager panel. Still open: the owner or a UX writer must approve the final text.	workspace-app.jsx:11243 — `{lc.archived ? "This store is archived and read-only — nothing is awaiting action." : lc.open ? "Nothing needs your attention right now. The store is open and taking orders." : "Nothing needs your attention right now."}`; workspace-app.jsx:11239 — `{hiddenCount} more`; workspace-app.jsx:11258 — `{r.when} · {r.tabLabel}`	High

Answered — no need to ask the US team

11 question(s) the prototype settles. Remove these from the list sent to the requirement owners.

ID	Priority	Question	Answer from prototype	Evidence	Confidence
Q-4	P2	When an invited team manager signs in, are they inside the store workspace (where they might see the Home tab) or in a separate portal? And should team managers get any Home-style page in this version?	Option A. Team managers get a separate portal with only Reporting and Rosters, and no Home tab.	workspace-app.jsx:31663 — `const NAV = [{ id: "payouts", label: "REPORTING" }, { id: "roster", label: "ROSTERS" }];`	Medium

ID	Priority	Question	Answer from prototype	Evidence	Confidence
Q-5	P2	Which tab order is correct? The tab-bar spec fixes the workspace at five tabs: Products, Orders, My Team(s), Reports, Settings. Home adds a sixth tab and also moves My Team(s) ahead of Products.	Option A: Home, My Teams, Products, Orders, Reports, Settings.	workspace-app.jsx:1717 — `{ id: "home", label: "Home", icon: IconHomeGlyph },`; workspace-app.jsx:1722 — `{ id: "general", label: "Settings", icon: IconSettings },`	High
Q-8	P2	If a manager is assigned to a division but has no delivery address, pending orders can't be submitted. Which card, if any, should warn the rep? Today C-03 only covers "no manager" and C-04 only covers the store-wide address.	Option A. C-03 already treats a manager with no street address as "needs a manager".	workspace-app.jsx:13235 — `return !! (hasName && isValidEmail(m.email) && isValidPhone(m.phone) && String(m.address`	High
Q-25	P3	What is the "recent work" section called on screen: "Pick up where you left off" or "Recently worked on"? The summary at the top of the page still uses the old name.	Option A: "Recently worked on", with "Open ›" on each row.	workspace-app.jsx:11251 — `<span style={sectionTitle}>Recently worked on</span>`	High
Q-26	P3	Blocking (red) cards are defined as cases where someone outside the workspace is already affected. In a Draft store nobody can order yet, but C-04, C-09 and C-12 still show as red cards. Is that intended?	Option A. C-09 and C-04 stay red on Draft stores.	workspace-app.jsx:11036 — `cards.push({ tone: "red", navTab: "products", kind: "products", title: "Add a product before you launch"`	High
Q-27	P3	Do blue (Action) cards put a dot on their tab label? The spec says red cards do and grey cards don't, but doesn't mention blue ones in that section.	Option A. Only red cards add a dot. (Separate "not yet visited" dots also exist; see the main table.)	workspace-app.jsx:11091 — `if (c.tone === "red" && c.navTab) s.add(c.navTab);`	High

ID	Priority	Question	Answer from prototype	Evidence	Confidence
Q-30	P3	Home links to the Close Report on Closed and Archived stores, and C-17 opens "Reports → Store Close Report". The Reports tab spec doesn't describe a Close Report entry at all. Should the Reports spec add it?	Option A. The Reports tab already has a Close Report entry at the top.	workspace-app.jsx:12093 — `<StoreCloseReportEntry store={store} variant="reports" />`	High
Q-32	P3	Where should C-03's "Assign managers" button take the rep: Settings → Distribution & Fulfillment (as written), or the Orders tab, where an "Assign Managers" pop-up already collects the missing managers and then carries on with the submit?	Option A. It opens Settings → Distribution & Fulfillment, focused on the affected division and team.	workspace-app.jsx:11417 — `setSettingsSection("distribution"); setTab("general");`	High
Q-35	P3	Do the buttons on C-11 ("Retry") and C-16 ("Launch store") act from Home, or only take the rep somewhere? Home is meant to send the rep to the right page, not do the action itself.	Option A. "Retry" opens the Products tab, and "Launch store" opens the usual launch confirmation pop-up.	workspace-app.jsx:11134 — `if (card.kind === "products") onGoTab("products");`; workspace-app.jsx:11135 — `else if (card.kind === "launch") onLaunch();`	High
Q-36	P3	May C-12 (bundles with only one item left) use the word "Incomplete"? Home asks someone to check whether reps see that word, and the Products catalog card already shows it.	Yes. Reps see "Incomplete — needs a second item" on the Products tab.	workspace-app.jsx:33708 — `Incomplete — needs a second item</div>`	High

ID	Priority	Question	Answer from prototype	Evidence	Confidence
Q-43	P3	Is the tab always labelled "My Team(s)", or does it change with the store type? Roster Management calls it "My Teams" on League stores and "My Team" on single-team stores, and Home says the navigation read that way in the prototypes.	Option B: "My Teams" on League stores and "My Team" on single-team stores. Home's row copies the tab.	workspace-app.jsx:1726 — `const labelFor = (it) => it.id === "roster" ? ((store && store.storeType === "league") ? "My Teams" : "My Team") : it.label;`	High

Still open for requirement owners

- Q-1 (P1, Not in prototype) — Who publishes the Appendix A changes, and must Home wait for them?
- Q-2 (P1, Partial) — Which tab owns each filtered list (C-05/C-15 players, C-10, C-23), and is building them part of the Home project? Only the players list exists today, and it is in Reports.
- Q-3 (P1, Contradicts) — Launch rule: "any product added" (as the prototype does) or "a product shoppers can see" (as Home's spec says).
- Q-6 (P2, Partial) — Should C-01, C-02 and C-05 wait a set time or show only near the deadline?
- Q-7 (P2, Partial) — Which store setups can show C-03 and C-04, and should C-04 also show after launch?
- Q-9 (P2, Partial) — Add a "Render failed" state to Products so C-11 has something to read.
- Q-10 (P2, Partial) — What counts as unconfirmed sizing, given products are confirmed when added?
- Q-11 (P2, Partial) — Is "Uncategorized" the state C-27 should flag, or is C-27 dropped?
- Q-12 (P2, Partial) — C-15 timing (7 or 14 days), and adding the 7-day limit to C-14.
- Q-13 (P2, Partial) — Keep C-17 as a card or replace it with a plain link, which must also show on Archived stores.
- Q-14 (P2, Partial) — Add an "accept this gap" action to the scheduler, or clear C-19 only when the gap is closed.
- Q-15 (P2, Not in prototype) — Where a PO's paid/unpaid status comes from.
- Q-16 (P2, Not in prototype) — Where the "keep these managers" choice is saved.
- Q-17 (P2, Partial) — The ranked order within each colour group.
- Q-18 (P2, Partial) — The full list of cards allowed in each store state.
- Q-19 (P2, Not in prototype) — Which rep actions add a "Recently worked on" row.
- Q-20 (P2, Partial) — Which order count the Orders row headline shows, and aligning the Reports tab's figures.
- Q-21 (P2, Partial) — Where the control to change the main contact lives.
- Q-22 (P2, Contradicts) — Rename "Primary Contact" / "primary" to "Point of Contact" in Step 1 and Settings, and show the tag only when buyers actually see that manager.
- Q-23 (P2, Contradicts) — Edit logo and colours on Home (spec) or link to Settings (prototype).
- Q-24 (P2, Partial) — Record in Settings that the logo and colours never lock after launch.
- Q-28 (P3, Partial) — Which spec owns the header status label (the prototype header has none).
- Q-29 (P3, Contradicts) — Update the Setup Guide's "Five tabs" card to include Home, or leave it.

- Q-31 (P3, Partial) — Change "Containers" and "approved" wording in the Orders spec.
- Q-33 (P3, Not in prototype) — Age rule and close-date text for C-05.
- Q-34 (P3, Not in prototype) — Whether C-10 includes already-visible products whose images are being remade.
- Q-37 (P3, Partial) — C-27 wording: "Uncategorized" or "aren't in a category".
- Q-38 (P3, Partial) — C-18 clears at Shipped or at Delivered.
- Q-39 (P3, Not in prototype) — Add the 7-day invite rule to Settings, or let Home own it.
- Q-40 (P3, Partial) — Invite status wording, showing the status on Home instead of an "Invite" link on every row, and pointing the links at People & Access.
- Q-41 (P3, Not in prototype) — Confirm the number of active cards (24 or 25).
- Q-42 (P3, Not in prototype) — Whether edits made on Home add a "Recently worked on" row, and where it links.
- Q-44 (P3, Partial) — Final rows and contents of "In your store", and where "raised" sits.
- Q-45 (P3, Partial) — Whether Settings adds "Add from Team Database" to the manager card.
- Q-46 (P3, Partial) — Where the Team artwork library link should go.
- Q-47 (P3, Partial) — Build the League directory now or after the My Team(s) redesign, and make rows open the clicked division or team.
- Q-48 (P3, Partial) — Final text for the empty list, archived message, expander, recent-work rows and the salesperson note.

Missing from the prototype (hidden build work)

20 screen(s), view(s) or control(s) the requirement needs that the prototype doesn't have. 4 have no question yet.

#	Needed by	What's missing	Where it should live	Type of work	Question
M-1	C-05, C-15 (Home: Epic C — C1 Orders, C4 Lifecycle & schedule; Dependencies)	A store-wide list of players who still haven't ordered their required gear, that a card can open directly. The only similar list is the "Still need to order" page in Reports. Spec: "My Team(s) → store-wide player view, filtered to incomplete".	My Team(s) tab	New view	Q-2
M-2	C-10 (Home: Epic C — C3 Products; Dependencies)	A catalog filter showing only products whose images are still being made, that a card can open directly. The catalog the rep sees has only search and Category. Spec: "Products → Catalog, filtered to those items".	Products tab → Catalog	New filter	Q-2
M-3	C-23 (Home: Epic C — C5 Settings & access; Dependencies)	A catalog filter showing only products still collecting fundraising after fundraising is turned off. Settings' "View in Products →" link already expects it but lands on the unfiltered catalog. Spec: "Products → Catalog, filtered to exempted items".	Products tab → Catalog	New filter	Q-2

#	Needed by	What's missing	Where it should live	Type of work	Question
M-4	Home: Epic F — Team Managers panel	The shared manager edit pop-up opened from Home for Add, Edit and Remove, with the "adding a manager grants no portal access" note, the block on removing the Point of Contact, and the "invite stays active until revoked" confirmation. Today Home sends the rep to Settings instead. Spec: "an Add manager action opening the existing manager edit modal".	Home → League/Team Manager Information panel	New modal	Q-21
M-5	Home: Epic F — Team Managers panel	The variations of the Point of Contact tag: "Point of Contact · email" when only one channel uses the manager, no tag plus a note at the foot of the panel saying who buyers see (with a link to the setting) when both channels use a salesperson or custom contact. Today the tag always shows.	Home → League/Team Manager Information panel	Change to existing screen	Q-22
M-6	Home: Epic G — Brand assets panel	The Team Logo drop zone and Team Colors control working on Home. Today both "Edit ›" links open Settings → General. Spec: "Rendered, editable via the existing component".	Home → Brand assets panel	Change to existing screen	Q-23
M-7	Home: Epic B — Close Report entry point	A route to the Close Report on Archived stores (Closed stores have it only through the C-17 card). Spec: "Given a Closed or Archived store, then Home surfaces a route to the Close Report."	Home	New button/link	Q-13
M-8	C-19 (Home: Epic C — C4 Lifecycle & schedule)	An "accept this gap" action on the coverage-gap note, so the card can clear when a gap is intended. Spec: C-19 clears when "Gap is closed or accepted".	Settings → Schedule & Status → Order Window Scheduler	New button/link	Q-14
M-9	C-20 (Home: Epic C — C4 Lifecycle & schedule)	An All Orders filter showing orders whose payment is still open (orders have no paid/unpaid status today). Spec: "Orders → All Orders, filtered".	Orders tab → All Orders	New filter	Q-15
M-10	C-21, C-22 (Home: Epic C — C5 Settings & access)	A way to review managers carried over from the previous team and mark them kept or remove them, so the cards can clear. Spec: C-21 resolves to "Settings → General → League/Team Manager Information", clears when "Records are kept or removed".	Settings → General → League/Team Manager Information	Change to existing screen	Q-16
M-11	Home: Epic A — header stays in place	A store status label (Draft / Open / Closed / Archived) and the storefront web address in the workspace top bar. Today they appear only in Home's status strip. Spec: "The store status chip, the storefront URL, the Preview Store control, and the Setup Guide re-entry point remain in the header".	Workspace top bar	Change to existing screen	Q-28

#	Needed by	What's missing	Where it should live	Type of work	Question
M-12	C-11 (Home: Epic C — C3 Products)	The "Retry" button opening the failed product's own page. Today it opens the top of the Products tab. Spec: "Products → the affected product's detail page".	Home → C-11 card	New button/link	Q-35
M-13	Home: Epic F — Invite	The invite status ("Portal access active" / "Invited, not signed in") shown on a manager row instead of the Invite link, and the Invite link and the panel's "Settings → People & Access" link actually opening People & Access (today both open Settings → General).	Home → League/Team Manager Information panel	Change to existing screen	Q-40
M-14	C-02, C-05, C-07, C-08, C-10, C-12, C-13, C-15, C-19, C-20, C-21, C-22, C-23, C-24, C-27 (Home: Epic C)	15 of the 25 registered attention cards. The prototype builds only C-01, C-03, C-04, C-06, C-09, C-11, C-14, C-16, C-17 and C-18.	Home → Needs your attention	Change to existing screen	Q-41
M-15	Home: Epic G — Team artwork library	A place for the team artwork library for the Home link to open. Today the link opens Settings → General; the separate "Logo Library" section is not linked. Spec: "Home links to it and says which scope it is."	Not stated	New button/link	Q-46
M-16	Home: Epic H; also C-07 and Epic D resume rows	League structure rows that expand to show each division's teams, and clicks that open My Team(s) at the chosen division or team with the division already open. Today every row opens the top of My Teams, and My Teams has no way to be opened at a chosen division from outside. The same jump is needed by C-07 ("the division's per-team coverage table") and by resume rows that point at a team.	Home → League structure panel; My Team(s) tab	Change to existing screen	Q-47
M-17	C-04 (Home: Epic C — C1 Orders)	The "Add address" button opening the Fulfillment Method card, where the ship-to address lives. Today it opens Settings → General. Spec: "Settings → Distribution & Fulfillment → Fulfillment Method".	Home → C-04 card	Change to existing screen	No question yet
M-18	C-02 (Home: Epic C — C1 Orders)	A way to open Pending Orders scrolled to one named group. Pending Orders can only be opened at its top today. Spec: "Orders → Pending Orders, scrolled to that group".	Orders tab → Pending Orders	Change to existing screen	No question yet
M-19	Home: Epic D — Recently worked on	Rows that open the exact item that was edited (a division, team, product or Settings section), and the expander that shows up to 15 rows. Today every row opens the top of its tab, and the list has no expander. Spec: "Five visible by default, most recent first, expandable to fifteen."	Home → Recently worked on	Change to existing screen	No question yet

#	Needed by	What's missing	Where it should live	Type of work	Question
M-20	Home: Epic G — Brand assets panel	Editing the Store Theme Color on Home with the Prolook color picker. Today "Edit ›" opens Settings → Store Customization & Design. Spec: "Rendered, editable via the Prolook color picker".	Home → Brand assets panel	Change to existing screen	No question yet
